(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)			
F 0583	Keep residents' personal and medi	cal records private and confidential.		
Level of Harm - Minimal harm or potential for actual harm	**NOTE- TERMS IN BRACKETS F	HAVE BEEN EDITED TO PROTECT C	ONFIDENTIALITY** 46756	
Residents Affected - Few	Based on observation, interview, and record review the facility failed to ensure privacy of health information for 2 of 18 residents reviewed (Resident 36 and Resident 72).			
	Findings include:			
	1) During an observation on 12/15/24 at 10:32 AM, Resident 36 was viewed from the hallway sitting in her room in a wheelchair watching television. A catheter bag was observed attached to the wheelchair frame underneath the seat of the wheelchair. The catheter bag contained about 200 ml of yellow fluid.			
	During an interview on 12/15/24 at 10:36 AM the Weekend Supervisor indicated urine in the catheter bag should not be visible from the hallway.			
	Resident 36's record was reviewed on 12/16/24 at 2:52 PM. Diagnoses included obstructive and reflux uropathy, and encounter for attention to other artificial openings of the urinary tract.			
	Resident 36's current Admission Minimum Data Set (MDS) dated [DATE] indicated their Basic Interview for Mental Status (BIMS) score was 6 (cognitively impaired). The MDS indicated Resident 36 needed maximal assistance with lower body activities of daily living.			
	During an interview on 12/16/24 at 3:07 PM, the Director of Nursing (DON) indicated catheter bags should be maintained with a cover so contents cannot be viewed by any passersby.			
	In an interview on 12/19/24 at 11:09 AM, the DON indicated the facility did not have a policy specifying how staff should keep contents of catheter bags from being seen by passersby.			
	2) During an observation on 12/15/24 at 12:16 PM, Resident 72 was seated in her wheelchair v Nurse Aide (CNA) 2 was pushing her wheelchair out of the main dining room. CNA 2 called lou members in the assisted dining area across the hall; Resident 72 needed to go to the restroom not know how to assist her. Residents, staff and a family member were all seated in the dining positioned to hear what was said.			
	Resident 72's record was reviewed on 12/16/24 at 11:51 AM. Diagnoses included psychotic disorder with delusions due to known physiological conditions, rheumatoid arthritis, and need for assistance with personal care.			
	(continued on next page)			

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

potential for actual harm	**NOTE- TERMS IN BRACKETS H	IAVE BEEN EDITED TO PROTECT CO	ONFIDENTIALITY** 51881	
Residents Affected - Many	Based on observation, interview, and record review, the facility failed to ensure safe, sanitary food storage and serving practices for 5 of 5 observations. Food prepared in the kitchen was consumed by 74 of 74 residents who lived in the facility.			
	Findings include:			
	During a continuous observation on [DATE] from 10:16 AM - 11:00 AM the following observations were made:			
	A countertop had open slotted drains and a brown, murky liquid puddle under the countertop.			
	The opened bag of french fries and bread were not dated in Freezer 1.			
	Freezer 2 had whipped cream in a bag not labeled or dated. The whipped cream was unsealed and open to air.			
	The opened bag of macaroni was not dated in the dry pantry.			
	There was a package of swiss cheese, expired ,d+[DATE], located in Refrigerator 1.			
	2 of 5 stacked metal pans had moisture between them.			
	The stand mixer had dime sized, di	ry, yellow flaky material on the paddle.		
	During a continuous observation from 11:34 AM-12:25 PM, Dietary Aide 4 donned gloves and st distribution of food to resident plates. She touched brussel sprouts and bread with gloved hands. Aide 4 held clean bowls against her t-shirt, touched her shirt with her gloved hands and then resisterving food. Dietary Aide 4 was observed using a pen to write on a meal ticket with her gloved hands are then resumed serving food. Dietary Aide 4 then scooped ice with a cup, and placed the cup onto tray. Dietary Aide 4 did not perform hand hygiene or change gloves during the continuous observed buring the distribution of food, 3 plates from the clean stack were observed with small flecks of controllers.			
	During an observation on [DATE] at 12:20 PM, Dietary Aide 11 assembled meal trays and covered dess with plastic wrap. Her hands were gloved. Dietary Aide 11 knocked the plastic wrap box onto the floor. S then picked up the box with her gloved hands from the floor, resumed assembling the meal trays and covering desserts with the same plastic wrap. Dietary Aide 11 did not perform hand hygiene or change h gloves.
