(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)			
F 0677	The MDS Director indicated R1 required physical assistance with oral, toileting, and personal hygiene.			
Level of Harm - Minimal harm or potential for actual harm Residents Affected - Some	R1's ADL Documentation Survey Report for July 2024 was reviewed with the MDS Director. There was no documented evidence the resident was provided with oral, toileting, or personal hygiene during the night shift on 07/24/2024 and 07/27/2024. The MDS Director confirmed the findings and indicated there was no documentation R1 had refused or R1 was unavailable during the shift. The MDS Director explained when a resident refused assistance or was unavailable for care, the CNA would document the refusal in the ADL Documentation Survey Report.			
	R1's ADL Documentation Survey Report for August 2024 was reviewed with the MDS Director. There was no documented evidence the resident was provided with oral, toileting, or personal hygiene during the day shift on 08/03/2024, 08/04/2024, 08/21/2024, 08/25/2024 and during the night shift on 08/01/2024, 08/03/2024, 08/06/2024, 08/08/2024, 08/21/2024, 08/22/2024, 08/28/2024, and 08/30/2024. The MDS Director confirmed the findings and indicated there was no documentation R1 had refused or R1 was unavailable during the shift.			
	R1's ADL Documentation Survey Report for September 2024 was reviewed with the MDS Director. There was no documented evidence the resident was provided with oral, toileting, or personal hygiene during the day shift on 09/01/2024. The MDS Coordinator confirmed the findings and indicated there was no documentation R1 had refused or R1 was unavailable during the shift.			
	On 11/20/2024 at 2:41 PM, the Director of Nursing (DON) explained the CNAs were expected to provide personal care and hygiene to the residents as documented in the residents' care plan. The CNAs should document in the electronic chart the care or ADL assistance provided to the residents at a minimum of once per shift.			
	The DON stated if there was no documented evidence, then there was no proof the tasks were performed. The DON reviewed R1's ADL Documentation Survey Report for July 2024, August 2024, and September 2024 and confirmed there was no documented evidence R1 was provided with oral, toileting, or personal hygiene on numerous shifts.			
	Resident 2 (R2)			
	R2 was admitted on [DATE] with diagnoses including muscle weakness, hemiplegia of the right dominant side, and respiratory failure. R2's Care Plan documented the resident had self-care deficit as evidenced by needing assistance with ADLs. The following activities/tasks were identified in the resident's care plan:			
	- Oral hygiene - partial/moderate as	ssistance		
	- Toileting hygiene - dependent			
		ted being left lying in a soiled brief for h 00 AM. R2 verbalized being left soiled a on most days.

F 0677 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Some	On 11/20/2024 at 02:25 PM, R2's ADL Documentation Survey Report for October 2024 and November 2024 were reviewed with the MDS Director. There was no documented evidence the resident was provided with toileting hygiene during the day shift on 10/25/2024 and during the night shift on 10/25/2024, 10/31/2024, 11/07/2024, 11/13/2024, 11/14/2024, and 11/15/2024. The MDS Director confirmed the findings and indicated there was no documentation R2 had refused or R2 was unavailable during the shift. On 11/20/2024 at 2:41 PM, the DON reviewed R2's ADL Documentation Survey Report for October 2024 and November 2024. The DON confirmed there was no documented evidence R2 was provided with oral, toileting, or personal hygiene on numerous shifts. The facility's policy titled Activities of Daily Living (ADLs) Supporting, revised in March 2018, documented				
	care and services would be provided for the following ADLs: - Hygiene (bathing, dressing, grooming, and oral care)				
	- Mobility (transfer and ambulation, including walking)				
	- Elimination (toileting) - Dining (meals and snacks); and				
	- Communication (speech, language, and any or functional communication systems).				
	A resident who was unable to carry out activities of daily living independently would receive the appropriate support and assistance to maintain good oral, toileting, personal hygiene.
