F 0607  Level of Harm - Immediate jeopardy to resident health or safety  Residents Affected - Some	The former Human Resource Director was interviewed via phone on 03/05/24 at 4:26 PM. The former Human Resource Director stated that when she hired new Nurse Aides, she would always run their name and social security number through the Nurse Aide Registry system and then would enter their listing number and expiration date into the facility's onboarding system. She stated she did not retain the original verification, only entered the needed information into their onboarding systems. She explained that she was preparing to leave the facility to pursue other opportunities and part of preparing to leave the facility included uploading all the Nurse Aide information into the facility's electronic onboarding system and during that time she re-verified that all the Nurse Aide's registry information was valid. She stated that was when she discovered that NA #1 had findings of misappropriation and fraud on her registry listing, and she had not disclosed that information upon hire. The former Human Resource director stated that she had verified her registry listing information upon hire. The former Human Resource birate and the registry listing information upon hire and there was nothing there and her background check was clean as well. She stated that after she made the discovery in August 2023, she took the information to the former Administrator who was also preparing to leave, and the information was sent to the Corporate Human Resource Director and also notified the District Director of Operations. She stated that NA #1 was terminated in December 2023 after an allegation of misappropriation of resident property but could not say what the outcome of reporting to the Corporate Human Resource Director and District Director of Operations was in August 2023.  An initial allegation report dated 12/14/23 read in part, Nurse Aide (NA) #1 had been accused of misappropriation of Resident #27's property.
