Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	 Ensure that residents are free from significant medication errors. **NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 27846 Based on observation, interview, and record review the facility failed to provide pharmaceutical services, which included procedures that assured the accurate acquiring, receiving, dispensing, and administering of all drugs and biologicals, to meet the needs of each resident for 1 of 29 residents (Residents #2) reviewed for pharmacy services. The facility failed to ensure Midodrine (a blood pressure (BP) medication given to elevate hypotension (low blood pressure) was administered to Resident #2 as ordered by the physician. This failure could place residents at risk of not receiving desired therapeutic outcomes, increased side effects, or a decline in health. Findings included: Record review of Resident #2's admission face sheet, undated, reflected an [AGE] year-old female admitted to the facility on [DATE] and readmitted [DATE] with diagnoses which included: hypertension (elevated blood pressure), congestive heart failure (a chronic condition in which the heart not pumping blood as well as it should), respiratory failure, Percutaneous Endoscopic Gastrostomy (G-tube) (a flexible feeding tube placed through the abdominal wall to allow nutrition, fluids and medications to be put directly into the stomach), chronic atrial fibrillation (an irregular rapid heart ratee that causes poor blood flow). 		
	Problem: Resident #2 had hyperter (passage of fluid through the circul Goal: Resident will remain free of s Interventions: Give antihypertensiv hypotension (a form of low blood p Record review of Resident #2's car Focus: Resident #2 had coronary a	signs and symptoms of hypertension. e medications as ordered. Monitor for	ective peripheral tissue perfusion side effects such as orthostatic flected: n. Resident #2 was at risk for

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
