(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0607</p> <p>Level of Harm - Potential for minimal harm</p> <p>Residents Affected - Many</p>	<p>Develop and implement policies and procedures to prevent abuse, neglect, and theft.</p> <p>46135</p> <p>Based on facility policy review and staff interview, the facility failed to develop written policies and procedures that include all the required topics to prohibit and prevent abuse, neglect, exploitation of residents, and misappropriation of resident property, potentially impacting all residents in the facility. Findings include:</p> <p>Facility policy titled Adult Abuse and Reporting, effective 11/28/2017, does not address the required topics related to the following components:</p> <p>Screening. The facility policy does not include the following screening topics:</p> <ul style="list-style-type: none"> o Written procedures for screening prospective residents to determine whether the facility has the capability and capacity to provide the necessary care and services for each resident admitted to the facility. <p>Training. The facility policy does not include the required training topics:</p> <ul style="list-style-type: none"> o Written policies and procedures that include training new and existing nursing home staff and in-service training for nurse aides in the following topics: <ul style="list-style-type: none"> -Prohibiting and preventing all forms of abuse, neglect, misappropriation of resident property, and exploitation; -Identifying what constitutes abuse, neglect, exploitation, and misappropriation of resident property; -Recognizing signs of abuse, neglect, exploitation and misappropriation of resident property, such as physical or psychosocial indicators; -Reporting abuse, neglect, exploitation, and misappropriation of resident property, including injuries of unknown sources, and to whom and when staff and others must report their knowledge related to any alleged violation without fear of reprisal; and -Understanding behavioral symptoms of residents that may increase the risk of abuse and neglect and how to respond. <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0609</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Timely report suspected abuse, neglect, or theft and report the results of the investigation to proper authorities.</p> <p>46135</p> <p>Based on interview and record review, the facility failed to ensure that allegations involving abuse are reported to the Administrator of the facility and other officials in accordance with State law for 1 applicable resident (Resident #1) and the facility failed to develop policies and procedures for ensuring the reporting of a reasonable suspicion of a crime in accordance with section 1150B of the Act, potentially impacting all residents in the facility. Findings include:</p> <p>1. Per review of a facility investigation report of an allegation of abuse submitted to the State Survey Agency on 4/9/2024, Licensed Practical Nurse #1 (LPN #1) witnessed a staff to resident altercation between Resident #1 and Licensed Nursing Assistant #1 (LNA #1) that occurred on 4/7/2024. This investigation report reveals that the altercation was not reported to the Administrator, State Survey Agency, Adult Protective Services, or local law enforcement agency until 4/9/2024, two days after the event occurred.</p> <p>Per interview on 4/16/2024 at 2:56 PM, LPN #1 explained that s/he had heard LNA #1 yelling at Resident #1 in the bathroom and saw LNA #1 and Resident #1 push and grab each other. S/He explained that s/he knew s/he was supposed to report the altercation but was afraid to report the event to the Administrator because s/he was worried it would come back on him/her negatively.</p> <p>Per interview on 4/16/2023 at 3:47 PM, the Administrator and Director of Nursing stated that they had educated LPN #1 about reporting allegations of abuse to his/her supervisor or other leadership within the required timeframes and confirmed that LPN #1 did not report it during the required timeframe.</p> <p>2. Facility policy titled Adult Abuse and Reporting, effective 11/28/2017, does not address the required topics to ensure the reporting of a reasonable suspicion of a crime:</p> <p>o Written policies and procedures that include:</p> <ul style="list-style-type: none"> -Each covered individual shall report to the State Agency and one or more law enforcement entities for the political subdivision in which the facility is located any reasonable suspicion of a crime against any individual who is a resident of, or is receiving care from, the facility. -Each covered individual shall report immediately, but not later than 2 hours after forming the suspicion, if the events that cause the suspicion result in serious bodily injury, or not later than 24 hours if the events that cause the suspicion do not result in serious bodily injury. -Orienting new and temporary/agency/contractor staff to the reporting requirements; -Assuring that covered individuals are annually notified of their responsibilities in a language that they understand; -Identifying barriers to reporting such as fear of retaliation or causing trouble for someone, and implementing interventions to remove barriers and promote a culture of transparency and reporting; <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0689</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Ensure that a nursing home area is free from accident hazards and provides adequate supervision to prevent accidents.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 46135</p> <p>Based on observation, interview, and record review, the facility failed to provide sufficient supervision for residents with a history of aggressive, disruptive, and intrusive behaviors for 2 applicable residents (Resident #1 and #2). As a result, many residents are at risk of being involved in a resident to resident altercations. Findings include:</p> <p>1. Per record review, Resident #1 was admitted to the facility on [DATE] with a diagnosis of Alzheimer's dementia. Resident #1's care plan states I may be sad, try to help other residents, push others in their wheelchairs take another resident for a walk, try to get another resident to do what [s/he] thinks they should be doing, assist with feeding another resident hit/slap staff when they are trying to redirect me, rub another residents back or arms. Care plan goals for Resident #1 include interact appropriately with those around me. Review of Resident #1's care plan reveals interventions that include monitoring, documenting, and reporting changes in behaviors, evaluating medication effectiveness, asking Resident #1 questions and saying positive and reassuring statements. The intervention check on me for the aides is the only intervention related to supervising Resident #1. While the care plan was revised with new interventions on 4/8/2024 and 4/9/2024 to include a list of activities that the resident likes (folding clothes, reading picture books, and working on puzzles), and an increase in their sertaline dose, there are no interventions added to the care plan related to supervising Resident #1.</p> <p>Per observation on 4/16/2024 at 11:30 AM, Resident #1 is observed in the common area, walking around to multiple residents, touching them on their shoulders and arms and holding onto their wheelchairs. An Activity staff member is in the room facing away from Resident #1. There are no other staff in sight of the common area. Resident #1 continues this behavior of touching other residents for 6 minutes until the Activity staff member sits him/her down at a table. On 4/16/2024 at 1:30 PM, Resident #1 is observed in the main hall area near a resident watching TV, Resident #1 began touching this resident on their arms and started to push the wheelchair. There were no staff visible from this main hall area.</p> <p>Record review reveals in multiple nursing notes that Resident #1 has aggressive, disruptive, and intrusive behaviors and interventions that staff are implementing are not working to change Resident #1's behavior so that s/he is interacting appropriately with others as stated in their care plan as a goal. Nursing notes show a pattern of these behaviors as revealed in the summaries below:</p> <p>On 3/13/2024 Resident #1 is noted to wander, go into other resident's rooms, tuck another resident's shirt into [his/her] pants and touch another resident's walker while they were trying to use it. Resident #1 became angry when trying to reorient.</p> <p>On 3/28/2024 Resident #1 is noted to grab a walker of another resident while they were walking by, wander, push resident wheelchairs, and have other disruptive behaviors.</p> <p>On 4/1/2024 Resident #1 is noted to be screaming, pushing, grabbing others and have other disruptive behaviors.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0689</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>On 4/3/2024 Resident #1 is noted to be intrusive, wander, and take other resident's walkers,</p> <p>On 4/5/2024 Resident #1 is noted to be screaming, exit seeking, and attempting to push other residents in their wheelchairs.</p> <p>On 4/6/2024 Resident #1 is noted to be rubbing and kissing other residents even when the residents and staff ask him/her to stop, feeding other residents, and becoming physically aggressive.</p> <p>On 4/10/2024 Resident #1 is noted to be rubbing another resident who is continuing to ask them to stop, wandering, screaming, grabbing, and other aggressive behaviors.</p> <p>On 4/13/2024 Resident #1 is noted to touch multiple residents including attempting to touch another resident's groin, and other intrusive behaviors.</p> <p>On 4/14/2024 Resident #1 is noted to be grabbing and pulling another resident and staff, yelling, wandering, touching multiple people, taking food from a resident, and attempted to pull them out of their chair, and other aggressive and intrusive behaviors.</p> <p>These nursing notes reveal that staff had attempted interventions for the above behaviors and the results were an unchanged or a deterioration in Resident #1's behavior.</p> <p>Per interview on 4/16/2024 at 11:40 AM, a Registered Nurse (RN) reported that s/he frequently finds Resident #1 in other residents' rooms. S/He indicated that she is concerned Resident #1 can hurt other residents because s/he tries to help them transfer. S/He explained that there are not enough staff to supervise him/her, or any of the other residents with these behaviors, especially during the hours of 3-5 PM.</p> <p>Per interview on 4/16/2024 at 1:34 PM, a Licensed Nursing Assistant (LNA) explained that staff cannot keep Resident #1, or other residents with these behaviors, occupied enough to stop them from having these behaviors. S/He stated that s/he is aware that other residents feel very uncomfortable by Resident #1's behaviors.</p> <p>Per interview on 4/16/2024 at 2:56 PM, a Licensed Practical Nurse (LPN) explained that Resident #1 can get very physical with staff sometimes and stated that Resident #1 would need one on one supervision to keep other residents safe and there is not enough staff to do that. S/He explained that interventions for these behaviors, like redirection, do not work and make the situation worse.</p> <p>Per interview on 4/16/2024 at 5:05 PM, the Nurse Care Coordinator confirmed that Resident #1's care plan had not been revised since 4/9/2024.</p> <p>50336</p> <p>2. Per record review Resident #2 was admitted to the facility with a diagnosis of dementia. Resident # 2 has a care plan for forgetfulness, wandering, and confusion. Interventions include monitor for behavior changes and report changes to provider, monitor whereabouts, redirect out of other rooms, offer one on one conversations. Care plan revision on 04/08/2024 reveal additional interventions such as offer outside for a walk and staff one on one when needed.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0689</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Per record review, Resident # 2 has been involved in several altercations at the facility involving other residents. The following sample of nursing notes reveal these altercations:</p> <p>A 3/23/2023 note states resident has been trying to tell other resident what to do, and where to go, pushing another resident hard in [his/her] wheelchair away from [himself/herself], cussing and threatening staff as well as other residents.</p> <p>A 4/05/2024 note states Resident dragging another resident by [her/his] arm into their room, staff intervened, and the other resident removed from the situation. Resident started cursing and threatening staff, throwing objects in the common area, punching tables, resident then went to [his/her] room and slammed door shut.</p> <p>A 4/10/2024 note states that Resident #2 was attempting to pull another resident by [his/her] arm into their room.</p> <p>A 4/14/2024 note states that Resident #2 grabbed another resident's wrist and started turning [her/him] in the opposite way pulling [her/him] down the hallway. 5 minutes later resident grabbed the same resident again looking irritated and started dragging them by the wrist down the hallway to the point the other resident said, 'ow stop that'.</p> <p>A Social Service note dated 1/03/2024 states resident can get irritated by certain residents so [he/she] needs to be watched and redirected if needed and provided alternative. Resident #2's care plan was not updated to reflect the need for supervision until 4/08/2024.</p> <p>Per interview on 4/16/2024 at approximately 1130 AM, an RN stated that s/he is concerned that there may not be enough staff to do one on one with the residents when they are agitated. The RN explained that the worse of the behaviors occur between 3:00 and 5:00 PM when there is not enough staff to watch the residents.</p> <p>Per interview on 4/16/2024 at approximately 4:30 PM, a License Practical Nurse stated [Resident #2], over the past month, has had an increase in behaviors. S/He stated that Resident #2 can be protective of staff if s/he perceives that another resident may be threatening toward these staff. The LPN stated that redirection is an intervention; however, it does not always work. S/He explained that the provider was notified of Resident #2's increased behaviors on 4/02/2024 but has not seen updated orders related to communication to the provider. The communication note, dated 4/2/24, reveals the following resident was in the dining room when [s/he] went over to another resident who was attempting to stand from their wheelchair and pushed [him/her] back down into [his/her] chair. Concern recent increase in aggressive behaviors. LPN requested medication adjustment.</p>
